

HERPETOLOGICAL CONSERVATION & BIOLOGY

December 2010

Open Access Publishing

Volume 5, Number 3

This year, HCB marks the passing of Henry S. Fitch (1909–2009), a giant in herpetology, natural history, and long-term ecological studies. The editors of HCB dedicate Volume 5 to this icon. Above, Henry Fitch talks with Arkansas State Herpetologist, Kelly Irwin, during a break at the 2004 Joint Meeting of Ichthyologists and Herpetologists at the University of Oklahoma in Norman.
